

# Convergence of Machine Learning, IoT, Nanomedicine, and Ayurvedic Intelligence for Precision and Preventive Healthcare

| Chapter | Title  | Page No. |
|---------|--|----------|
| 1       | <b>Artificial Intelligence and Machine Learning: The Next Frontier in Predictive and Preventive Healthcare</b> | 13       |
| 2       | <b>Machine Learning-Based Predictive Framework for Early Cancer Diagnosis and Classification</b>               | 38       |
| 3       | <b>AI-Driven Oncological Analytics for Tumor Growth Detection and Metastasis Prediction</b>                    | 66       |
| 4       | <b>IoT-Enabled Real-Time Cancer Monitoring Systems Using Biosensors and Cloud Intelligence</b>                 | 93       |
| 5       | <b>Nanoparticle-Enhanced Targeted Drug Delivery Systems for Cancer Therapy</b>                                 | 122      |
| 6       | <b>Deep Learning Models for Kidney Stone Detection and Treatment Recommendation</b>                            | 150      |
| 7       | <b>AI-Powered Ultrasound and CT Image Processing for Renal Disorder Analysis</b>                               | 179      |
| 8       | <b>Hybrid AI–IoT Framework for Emergency Response Systems in Cardiac Arrest Management</b>                     | 207      |
| 9       | <b>Integrating Ayurvedic Pharmacology with Nanotechnology for Precision Medicine</b>                           | 236      |
| 10      | <b>Hybrid AI–Ayurvedic Therapies for Cancer and Chronic Disease Management</b>                                 | 265      |
| 11      | <b>Nanoparticle-Assisted Herbal Drug Delivery Systems: Bridging Ayurveda and Nanomedicine</b>                  | 294      |
| 12      | <b>AI-Guided Nanoparticle Design for Targeted Drug Delivery and Controlled Release</b>                         | 325      |
| 13      | <b>Machine Learning in Nanomedicine: Predictive Models for Drug Efficacy and Toxicity</b>                      | 386      |
| 14      | <b>Integration of Biosensors and Nanoparticles in IoT-Based Health Monitoring Systems</b>                      | 386      |
| 15      | <b>The Future of AI, IoT, Nanotechnology, and Ayurveda Integration in Intelligent Healthcare Systems</b>       | 415      |
