AI and Machine Learning in Digital Finance: Fraud Detection, Secure Payments, and Stock Market Forecasting

Chapter	Title	Page No.
1	**Artificial Intelligence in Smart Finance: Fraud Detection, Cloud Payments, and Market Forecasting**	18
2	**AI and Machine Learning for Financial Security and Digital Transactions**	45
3	**Deep Learning–Enabled Fraud Analytics for Banking and E-Commerce**	73
4	**Intelligent Financial Systems: IoT, Cloud Computing, and Predictive Market Intelligence**	101
5	**AI-Powered Online Payment Security and Fraud Detection in Modern Finance**	129
6	**Smart Banking Intelligence Using Machine Learning, IoT, and Cloud Analytics**	157
7	**Next-Generation Financial Fraud Detection Using AI, DL, and Graph Analytics**	185
8	**Financial Data Science with Machine Learning: From Fraud Prevention to Stock Forecasting**	214
9	**Cloud-Based AI Solutions for Secure Payments and Banking Automation**	241
10	**Machine Learning for Banking Risk, Fraud Detection, and Transaction Intelligence**	268
11	**Data-Driven Financial Intelligence: Fraud Analytics, Tourism Revenue, and Market Prediction**	295
12	**AI and IoT for Digital Payment Systems and Financial Security**	323
13	**Predictive Analytics in Finance: Stock Market Forecasting and Fraud Mitigation**	350
14	**Deep Learning for Secure E-Commerce, Online Transactions, and Financial Growth**	377

15	**Intelligent Fraud Detection Systems for Banking, E-Commerce, and Cloud Payments**	405
16	**AI-Enabled Financial Forecasting: Stock Market Trends and Revenue Optimization**	433
17	**Financial Fraud Prevention and Online Payment Analytics Using Machine Learning**	461
18	**AI-Driven Revenue Intelligence: Tourism, E-Commerce, and Market Performance Analytics**	488
19	**Applied AI for Banking and Stock Market Prediction with Cloud-Based Architectures**	514
20	**Intelligent Systems for Online Payments, Fraud Detection, and Financial Forecasting**	542
