

AI-Driven Drone Systems: Intelligent Applications in Smart Infrastructure, Healthcare, Security, and Sustainable Environments

Chapter	Title	Page No.
1	AI-Based Bridge Crack Detection and Structural Health Monitoring Using Deep Learning and UAV Imaging	15
2	Smart Traffic Flow Optimization Using Aerial Data Analytics and Machine Learning Techniques	43
3	Autonomous Construction Site Monitoring Using AI-Enabled Drones with Cloud-Based Data Integration	72
4	Power Line Fault Detection and Predictive Maintenance Using ML-Enabled UAV Inspection Systems	102
5	Crop Disease Prediction Using Drone-Based Multispectral Imaging and Machine Learning Models	131
6	Precision Pesticide Spraying Using AI-Based Path Planning and Autonomous UAV Navigation	160
7	Forest Fire Early Detection Using Thermal Imaging and AI-Based Predictive Analytics Models	188
8	Water Quality Monitoring Using Cloud-Connected UAVs and Real-Time Environmental Analytics	217
9	Emergency Medical Supply Delivery Using AI-Based Route Optimization and Autonomous Drone Systems	247
10	Crowd Behavior Analysis for Public Safety Using Aerial Surveillance and Machine Learning Algorithms	276
11	Pandemic Monitoring and Contactless Surveillance Using AI-Driven Drone-Based Tracking Systems	306
12	Autonomous Warehouse Inventory Management Using AI-Powered Drones and Cloud-Based Logistics Systems	335
13	Oil and Gas Pipeline Inspection Using Deep Learning and UAV-Based Visual Analytics	364

14	Insurance Claim Assessment Using AI-Based Drone Imaging and Automated Damage Evaluation Systems	394
15	Real Estate Analytics Using Aerial Machine Learning Models and Drone-Based Data Acquisition	424
16	Retail and E-Commerce Drone Delivery Systems Using AI, Cloud Computing, and Logistics Optimization	453
17	AI-Based Border Surveillance and Intrusion Detection Using Intelligent UAV Monitoring Systems	483
18	Anti-Drone Systems Using Machine Learning-Based Threat Detection and Mitigation Techniques	512
19	Secure Drone Communication Using Cloud-Based Encryption and Cybersecurity Frameworks	541
